SUMMARY

Computer Technology student with a strong foundation in programming, web development and database concepts. Skilled in HTML, CSS, JavaScript, React.js, Java, Python and SQL, with hands-on experience developing academic and personal projects. Adaptable and eager to learn, with an interest in building practical software solutions and starting a career in the technology industry.

EDUCATION

Sri Krishna Arts and Science College

Bachelor of Computer Technology

2023 – 2026

Keartiman Metric Hr. Sec. School

Higher Secondary Education

2021 – 2023

S.T. Gregories English Medium School

Secondary Education

2020 – 2021

PROJECTS

E-Commerce Website | Developed an online shopping application using Java, HTML, CSS and React.js with product browsing, cart management, order placement and online payment transaction functionality.

Hotel Food Ordering System | Developed a React.js based application for displaying food items and allowing users to select items and place orders through an interactive interface.

React Calculator | Built a calculator application using React.js with interactive controls and basic arithmetic operations.

Student Course Registration | Created a student course registration form using HTML and CSS for collecting and displaying student course information.

Music Academy Website | Designed a responsive website for presenting music courses, academy information and related content using web technologies.

Personal Portfolio Website | Created a responsive portfolio website using HTML and CSS to showcase education, skills, projects and certifications.

TECHNICAL SKILLS

Programming: C, C++, Java, Python, SQL

Web Development: HTML, CSS, JavaScript, React.js

Databases: MySQL, MariaDB, PostgreSQL, MongoDB

Tools: Jupyter Notebook, Google Colab, Selenium

CERTIFICATIONS

Spoken Tutorial: Java

Spoken Tutorial: RDBMS

Spoken Tutorial: SQL

Coursera – Data Science: Introduction to Data Science

Coursera – Data Science: Data Science Tools

Coursera – Data Science: Data Science Methodology

Coursera – Data Science: Database and SQL for Data Science with Python

NPTEL: Developing Skills and Personality

NPTEL: Foundation of Cloud, IoT, Edge and Machine Learning

AREAS OF INTEREST

- Full Stack Web Development - Frontend Development - Backend Development - Database Management - Software Development

STRENGTHS

- Problem-solving and logical thinking - Quick learner - Willingness to learn new technologies - Practical project development - Self-learning and continuous improvement

CAREER OBJECTIVE

To begin my career in a software development role where I can apply my technical knowledge, contribute to real-world projects, learn from experienced professionals and continuously improve my skills.
